

Dear Robert Astorino, Catherine Borgia, Michael Kaplowitz, and John Testa,

I want to make sure you are aware of the proposed 92-bed drug addiction treatment facility identified as the Hudson Education and Wellness Center. This facility as proposed would be in a residential area impacting residents of Cortlandt, New Castle, Ossining, and Yorktown. The proposed location is on Quaker Ridge Road in the midst of a bucolic residential area with 2 acre zoning.

I have made my concerns known to the Town of Cortlandt Planning Board. However, given the multi-municipal coverage impacted by this proposal, I would like your assistance in making sure this project is fully vetted in terms of:

- TRAFFIC
- WATER USAGE
- SEWAGE DISPOSAL
- INDIAN POINT EVACUATION ZONE CAPACITY
- UNKNOWN ENVIRONMENTAL ISSUES THAT REQUIRE A FULL ENVIRONMENTAL IMPACT STATEMENT
- IMPACT ON ALL THE RESIDENTS AND THE CHARACTER OF UNIQUE RESIDENTIAL AREA YOU REPRESENT

In particular, I would like immediate assistance in executing a regional traffic study. I understand a traffic study request was submitted to your offices on July 26, 2015. Please let me know how you can move this important safety study forward for your constituents.

Sincerely,

*Name*
